RADIOLOGY DEPARTMENT

SPECIAL PROCEDURES

MYELOGRAM
(CERVICAL, LUMBAR, TOTAL)

PATIENT NAME: ________________________________

DATE OF PROCEDURE: _________________________

TIME OF PROCEDURE: __________________________ (REPORT TO ADMITTING 15 MIN PRIOR)

INSTRUCTIONS:
- NOTHING TO EAT 4 HOURS PRIOR TO PROCEDURE.
- AFTER THE EXAMINATION, YOU WILL NEED TO REMAIN IN RADIOLOGY UNDER OBSERVATION UNTIL DISMISSED BY THE RADIOLOGIST.
- PLEASE ARRANGE FOR SOMEONE TO DRIVE YOU HOME AFTER THE PROCEDURE.

TEST SUMMARY:
- THE RADIOLOGIST WILL PERFORM A SPINAL PUNCTURE TO ALLOW FOR THE INJECTION OF CONTRAST MEDIA. RADIOGRAPHS WILL BE OBTAINED OF YOUR SPINE, AS WELL AS, A POSSIBLE CT SCAN.

Myelography is used to visualize the structures of the central nervous system situated within the spinal canal. Spinal cord lesions such as tumors or herniated intervertebral discs are also detected.

ANY QUESTIONS OR IF YOU ARE UNABLE TO KEEP YOUR APPOINTMENT, PLEASE CALL THE RADIOLOGY DEPARTMENT
